DISPENSARY OF

FREE MEDICINE/PRESCRIPTIONS FOR THE UNINSURED AND LOW INCOME IN CT

Founded in 2003, the National Dispensary of Hope is a leading provider of pharmaceuticals to uninsured patients through a growing network of dispensing sites across the country sustained by local partnerships. The Dispensary has collected and distributed tens of millions of dollars worth of pharmaceuticals and filled more than 200,000 prescriptions for patients who otherwise couldn't afford them. **The Hope Dispensary of Greater Bridgeport is dedicated to serving low income and uninsured individuals in the Bridgeport Community.** Our team is also bilingual in languages

such as English, Spanish, and Portuguese

CHARITABLE MEDICATION DISTRIBUTOR

Through innovative stewardship of the pharmaceutical supply chain, the Dispensary of Hope collects and distributes millions of dollars of pharmaceuticals annually to pharmacies and safety-net clinics to dispense to low income, chronically ill patients. Through meaningful partnerships, pharmacies and clinics nationwide can utilize Dispensary of Hope medication to impact the health of their communities by improving access to affordable medication. As the cornerstone of population health initiatives, the Dispensary of Hope program is key to reducing avoidable hospital readmissions and emergency room use that often results from lack of access to affordable medication.

MEDICATION IS RECEIVED THROUGH GENEROUS DONATIONS FROM PHARMACEUTICAL MANUFACTURERS

As members of HDA, AAM, and an accredited organization of the MedSurplus Alliance, the Dispensary of Hope has established a foundation of innovative solutions to prescription medication access by connecting abundance with need for the most vulnerable communities in the United States. Our manufacturer partners help over 50,000 patients throughout the United States.

MEDICATION IS DISTRIBUTED DOMESTICALLY TO DISPENSING SITES

Our national network of dispensing sites includes outpatient pharmacies, charitable pharmacies, federally-qualified health centers and safety-net clinics - all not-for-profit organizations licensed to dispense medication directly to patients.

TODAY

The work of the Dispensary of Hope is delivered by a national collaborative of health systems, pharmaceutical manufacturers, and others dedicated to providing medication access to the most underserved communities.

Each day, this collaborative is humbled by the stories heard from patients, the challenges they take on in seeking medical care and the trials they face in securing the medication that often keeps them healthy.
